

Cristian Zanfir

OUR NEXT MEETING DAY FEBRUARY 7th, 2023

Presentation Topic: CSA Standard W47.1 (2019) Highlights
Presented By: Cristian Zanfir, CWB Group

Cristian Zanfir joined CWB Group in 2004 when started his new career as a certification representative in Ontario region. During his career with the CWB Group he’s held several roles like Procedure Verification Engineer, Supervisor Ontario Operations, Supervisor Procedure Verification Engineer and Electrodes Certification Department. Today, Cristian is working for the Office of Public Safety of the CWB Group as Assistant Manager Standards. He’s main role is to contribute to developing standards within a large number of standards committees of the AWS, ASME, CSA and ISO organizations.

CSA Standard W47.1 “Certification of companies for fusion welding of steel” has been revised and updated by the CSA Technical Committee to ensure that the certification program is continually improved in response to industry feedback and changes in technology. This new edition (2019) will supplement the provisions of the current 2009 edition of CSA W47.1.

The purpose of this presentation is to provide the audience with updates on what has been changed in the latest edition of CSA W47.1. The CSA W47.1 Technical Committee has agreed to the inclusion of new provisions for testing of welding personnel and procedures that will help fabricators welding steel materials less than 3mm thickness, stainless-steel materials of all thicknesses and for robotic welding applications.
